Parcel 1630351 exhibit "A"

There are only two parcels that do not have frontage on an existing sewer, they are Parcel 5 and Parcel 6. The other parcels all seem to have frontage on an existing sanitary sewer main for a service connection. Gravity sewer service is not guaranteed though and the existing grade may limit them to a private pump station.

Parcel 5 and 6 would need frontage on an existing sanitary sewer by way of easement (install long laterals) or extend the sanitary sewer main.

Sanitary sewer permit fees for each single-family home will be \$2,100. Owners should contact licensed drain layers for bids on making the physical connection and guidance on connection methods.
